Grain and Provisions.

CHICAGO, Oct. 1.-Bullish European crop advices caused a firm tone in wheat market today. At the start sentiment was decidedly bearish, the principal depresdecidedly bearish, the principal depressing influence being a big increase in Northwestern receipts In addition cables furnished a further incentive to sellers, price in foreign grain market failing to follow the advance made here. A large increase in stocks at Livetpool and larger shipments than predicted from Australia were causes of depressing tendencies abroad. The market here opened with December down 1-3 to % at \$1.124 to \$1.124 and May off % at \$4.64% at \$1.15 to \$1.124, with pit traders unanimously favoring the selling side prices soon dropped about half a cent, declining to \$1.124. May sold off to \$1.125. Buying by commission-houses railled the market slightly and the trade temporarily settled into a scalping affair with fluctuations small. Later another report which originated with a leading cash grain house on the continent stated that the Russian wheat crop this season is \$48 to \$72 million bushels, as against \$62 millions last year the strength of the Minnesota market was an added buil factor late in the day. As the market started upward local traders who sold short early became reightened and brought back their wheat. Under this buying December advanced to \$1.125 and May to \$1.125. May closed at \$1.12561.135.

Strawberries were shown in several places, but the price was prohibitive and such as to place a crown of gold on King Strawberry's head.

Housewives were tempted to break the Sabbath and do their preserving today by displays of great baskets of German prines at \$1 per bushel.

Prices on fruits and vegetables have been practically stationary for a week, and present indications point to a quiet market for this week. The gardens are just now bringing in the late vegetables, and what is not grown here is being shipped in such quantities as to guarantee that prices will not sour for several days. CASH QUOTATIONS.

the expected expansion in loans and a reduction somewhat less than that estimated from the traceable movements of money during the week. The decrease in surplus reserve carried this item to within ten and three-eight millions of the lowest of the year, which was recorded on January 2, and it made the reduction in surplus since August 27, 123,659,000.

"The loss of cash in this interval was \$35,066,000 and the expansion of loans was \$45,76,790. The cash decreased last week \$6,650,100, or \$1,025,100 less than that which was estimated. The deposits decreased \$1,286,000, whereas the sum of the loss in cash less the increase in loans, called for a reduction of \$2,120,000 in deposits.

"The required reserve was diminished by \$21,500, Geducting which from the decrease in cash, left \$6,37,600 as the reduction in surplus reserve to \$19,912,455. Computed upon the basis of deposits, less those of \$2,252,400 public fands, the surplus was \$25,72,005. The loans were expended by \$1,520,100, probably the result of corporation borrowing and also the loaning of funds temeorarily deposited with the banks in anticipation of October disbursements for dividends and interest.
